## President and Director's Report.

---

*To the Stockholders of the*

*Wilmington and Weldon Rail Road Company :*

The President and Directors submit their thirty-seventh annual report ; also that of the Superintendent and the financial statement of Treasurer :

Gross Earnings.....	\$635,870 95
Expenditures.....	405,037 49

---

\$230,833 46

This is the best exhibit the Company has ever made ; and can be relied on for continuance in the future, as it has resulted from permanent causes.

The extension of the Wilmington, Columbia and Augusta Rail Road from Sumter to Columbia, and the purchase of the Charlotte, Columbia and Augusta Rail Road by the Southern Railway Security Company, has given full Southern connections which were never had before. These new connections have given quite an increase of business, and will in the future be much larger, as there has not been sufficient time for its development.

The local business has been constantly increasing ; and while a single year does not show any very great increase in the receipts, five years makes a marked difference.

Those who are familiar with the country along the line of the Road, will remember six or seven handsome villages, where five years ago were only a warehouse and two or three stores. The general appearance of the farms in view of the Road, show increasing prosperity.

Whatever may be said of other portions of the South, the appearance of this section, with increased freights, from increased productions, prove beyond all contradiction that this section is recuperating and growing in prosperity ; while there may be individuals growing worse, the community taken together is improving in its financial condition.

How far an all rail line can compete for the far off Southern business, with rival lines running to the coast and thence by

sea to the Northern trade centres, remains a problem to be solved. If this experiment should not succeed we can fall back on the Port of Wilmington and command a full share of the business. The true interest of the line requires both the all rail line and the Port of Wilmington, for the purpose of enjoying all the advantages of its position.

While this line is a little longer than some of its rivals, the increased distance is much more than overcome by the advantage of light grades and fewer curves—advantages so great, that freights can be carried cheaper than on the lines with heavy grades and short curves.

The increase of business requires an increase of Locomotives and Cars; while the increased tonnage is rapidly wearing out the older parts of the track, over one half of which has been relaid with new rail since the war. The purchase of new rails already made, will be sufficient to maintain the track until the Spring, when a further supply will be required.

The Superintendent recommends that the Road shall be ballasted as rapidly as possible, as the best means of saving the machinery and track from rapid depreciation.

The lease of this Road, to the Wilmington, Columbia and Augusta Rail Road Company, fixes the future value of the Stock; five per cent to be paid on the fifteenth of December, and six per cent the next year, and seven thereafter in semi-annual instalments, to be paid to the Stockholders free from all taxes or other incumbrances. The lease has been so arranged that no further indebtedness can be imposed on the Company. The Stockholder not only has the income of this Road as a guaranty for his future dividends, but has that of the Wilmington, Columbia and Augusta Rail Road Company; the gross incomes of which have already been increased more than sixty per cent by the extension of the Road from Sumter to Columbia.

It is a just cause of congratulation that the Company has no floating debt, and can say to its Stockholders that these dividends have been secured beyond all contingencies free from all taxes or other expenses, the stock offers a good permanent investment for capital.

R. R. BRIDGERS,  
*President.*

# General Superintendent's Report.

WILMINGTON AND WELDON RAIL ROAD COMPANY,  
*Office of General Superintendent,*  
 WILMINGTON, N. C., October 1st, 1872. }

HON. R. R. BRIDGERS. *President* :

SIR—In compliance with the general regulations, I submit my first Annual Report of the operations of this Company for the fiscal year ending September 31st, 1872 :

## RECEIPTS AND EXPENDITURES.

### RECEIPTS.

From Through Travel.....	\$ 96,759 24
“ Way “ .....	131,255 86
“ Freights.....	366,176 79
“ Mails.....	24,945 00
“ Miscellaneous sources.....	16,734 04
	\$635,870 93

### EXPENDITURES.

By Road Department.....	\$122,935 02	
“ Machinery Department.....	112,112 46	
“ Transportation “ .....	120,176 57	
“ General Expenses.....	49,813 44	\$405,037 49
Balance in favor of Receipts...		\$230,833 45
Total Receipts this year.....	\$635,870 93	
“ “ last “ .....	579,583 53	
Increase over last year.....	\$ 56,287 40	
Totat Expenditures this year....	\$405,037 49	
Less sales of old Material.....	43,436 61	
Working Expenses for this year..	\$361,600 88	
“ “ last “ ..	359,446 99	
Increase over last year.....	\$ 2,153 89	

By reference to the Machinery Department you will observe that we have purchased during this year, viz :

1 New Locomotive.....	\$ 10,080 00	
10 New Platform Cars.....	5,500 00	Made in our Shops

---

\$ 15,580 00

#### ROAD DEPARTMENT.

The Road has been very much improved this year by  $(10\frac{1}{4})$  ten and one quarter miles of new rails, which reduces the amount of old rail to  $(80\frac{3}{4})$  eighty and three quarter miles, which has been in the track (22) twenty-two years. We cannot expect this old iron to last much longer as it is very much worn.

We shall require for the coming year (3,000) three thousand tons of new iron. This amount may seem large, but I am sure it will be economy to put every rail of it in the track, as the cost of keeping up the rolling stock and road will be very much reduced.

Arrangements are being made for the building of bridges over Smith's and Fishing Creeks, and will be completed during the coming year. I would also recommend that the work of building stone culverts to replace small trestles, be commenced at an early a day as possible and that an appropriation be made for that purpose.

The work of ballasting the road has been continued through the year, but not as rapidly as I could have desired, owing to the scarcity of Engines and cars, having but one engine for that purpose, an old worn out Locomotive and dirt cars which are not at all suitable for hauling gravel any distance. I am much in hopes that by next spring, we may be better prepared and that the work of ballasting may be pushed forward more rapidly than ever, as I consider it a most important work.

#### MACHINERY DEPARTMENT.

The Machinery is in good order. One new yard Engine has been purchased during the year, at a cost of \$10,080. Ten new platform cars have been built, costing \$5,500. Five new postal cars are under way ; two nearly finished and the other three will be completed during the year.

We shall require soon, three new passenger cars to take the place of some of our old ones, that are old style and unfit for our regular passenger trains.

We are rebuilding an Engine for freight service in our shops, which will be completed and put in service some time in December next, which when completed will compare

favorably with any in workmanship or service. Two new Locomotives have been ordered, one to be delivered in October and the other in February next, which will not be sufficient to meet the wants of our Road for the coming year.

The new through business now being received by our Road, since the opening of the Wilmington, Columbia and Augusta Rail Road to Columbia, will require a large increase in our rolling stock.

Seven new Locomotives will be required in addition to those already ordered, and about one hundred new cars, The latter we can build from time to time as the necessity may require.

Of the twenty-two Locomotives we have, sixteen can only be called good. Three small ones and the other three are not of much service and will be cut up for old material soon, so you will see that six of our Engines only count in number, while in fact, they are of but little use. Two new Engines would be of more service than all of them.

#### TRANSPORTATION DEPARTMENT.

The earnings of this Department show an increase over last year's business of \$56,287 40. This increase is owing in a great extent to our through freight and passenger business, which has been much better than the previous year and we have every evidence for a large increase the coming year.

Preparations should be made to meet the wants in this Department before the fall business commences another year. Inexperienced persons may think it folly to expend so much money in rolling stock to be in use only for a short season. It would be, if there were no other outlets for the freights, but we must now, as others do, look upon time as money, and the route that transports the produce to market with the greatest dispatch, will certainly receive the largest amount of freights and if we can in six months earn what formerly took twelve, it will most certainly prove a good investment and enable us to build up new business during the dull season.

As a general thing the Officers and Agents have been faithful and efficient in the performance of their respective duties.

Respectfully submitted,

JOHN F. DIVINE,

*General Superintendent.*

*Performance of Locomotive Engines, and cost per mile run for the year ending September 30th, 1872.*

# Proceedings.

1872.

---

SPECIAL MEETING  
OF THE  
STOCKHOLDERS  
OF THE  
WILMINGTON & WELDON RAIL ROAD CO.

---

WILMINGTON, N. C., November 20th, 1872.

In pursuance of a resolution adopted by the Board of Directors at a meeting held in Baltimore on the 24th day of May, 1872, the Stockholders of the Wilmington & Weldon Railroad Company convened at the office of the President in the city of Wilmington, on Wednesday, the 20th day of November, 1872.

On motion of Hon. R. R. Bridgers the meeting was organized by calling Silas N. Martin, Esq., to the Chair and appointing, J. W. Thompson Secretary.

On motion of Dr. A. J. DeRosset, Geroge R. French and J. W. Thompson were appointed a committee to verify proxies and ascertain the number of shares of the capital stock of the company represented.

The committee reported that the capital stock of the company consists of 14,523 shares of the par value of \$100 each, and that there were 10,788 shares represented in the meeting, viz., 2,889 in person and 7,899 by proxy, whereupon the meeting was declared to be duly organized.

On motion of B. F. Newcomer, Esq., the Secretary read the following extract from the minutes of the Board of Directors at a meeting held this day :

“The instrument of lease demising the property, effects and franchise of this Company to the Wilmington, Columbia and Augusta Railroad Company, drafted in pursuance of the resolution of this Board, adopted on the 24th day of May last, having been read and considered by the Board, it was thereupon

*Resolved*, That said instrument of lease be approved and submitted to the stockholders of this company, at their meeting to be held this day, with the recommendation that the same be assented to on the part of this company."

An motion of Dr. A. J. DeRosset, the meeting then proceeded to consider the lease and the instrument was read by Wm. A. Wright, Esq.

Mr. B. F. Newcumer then offered the following preamble and resolutions :

WHEREAS, At a meeting of the Board of Directors of this Company, held on the 24th day of May, 1872, the preamble and resolution following was adopted, that is to say :

"Whereas, It is deemed that the interests of the Stockholders of this company would be greatly promoted by effecting a lease of the Road and its equipments and property to the Wilmington, Columbia & Augusta Railroad Company, therefore, be it

*Resolved*, That a Committee be appointed by the President to confer with the President and Directors of the Wilmington, Columbia and Augusta Railroad Company, or a Committee of the same, to agree upon a lease of all the property of this Company to said Wilmington, Columbia and Augusta Railroad Company for a term of ninety-nine years, renewable forever upon such terms as will provide for the payment of the regular interest on all the bonded debt of this company, and the assumption of all its assets, including stock and interest in the Wilmington Railway Bridge Company, and the payment of all its liabilities other than its funded debt, and the payment to this company of five per cent. on its capital stock for the current year, and the further payment of six per cent. on its capital stock for the next year, and seven per cent. for each succeeding year during the continuance of the lease ; said payment to be free or exclusive of all taxes which are now, or may at any time hereafter be imposed by the government of the United States upon any dividend or income derived by the stockholders from capital stock in this company. Arrangements are also to be made for the Lessee to provide for, and keep up, the sinking fund according to the requirements of the mortgage now existing on the road, said sinking fund and all increments thereof to belong to the Lessee, who is to provide for the payment and retirement of the existing mortgage debts of this company, And the Lessee to obligate itself to make

a consolidated mortgage bond secured by a proper mortgage on all the property and franchises of the company, to the extent of such sum as may be sufficient for the retirement of the funded debt in such sums and payable at such time after date as the Lessee may elect, the same to be delivered to the Lessee who is to agree, in consideration of the delivery of said bonds, to provide for and take care of all the funded obligations of this company, now amounting to \$1,620,000, as the same shall mature. Said lease if agreed upon on the part of the President and Directors of both companies, to be subject to the approval and ratification of the stockholders, or a majority of the stock in each company. Provision is also to be made to keep and continue the organization and charter of this company. Ample provision for a betterment clause is also to be made.

And whereas, in accordance with said resolution, after their conference between duly constituted committees, severally appointed by the respective Boards of Directors of the Wilmington, Columbia and Augusta Railroad Company and of this Company, an instrument of a lease of the property and franchises of this company, as contemplated and proposed by the said resolutions, has been carefully drawn and after receiving the diligent scrutiny of the Board of Directors of this Company, is recommended for acceptance by the stockholders of this Company, and said instrument of lease having been read and considered by this meeting, in which a large majority in interest of the stockholders of this company is represented, it is, therefore,

*Resolved*, That the action of the Board of Directors of this company, in the premises is hereby approved and ratified, and that the stockholders of this company assent to the lease of the railroad and other property, effects and franchises of this Company, to the Wilmington, Columbia and Augusta Railroad Company on the terms and conditions set forth in the instrument of lease this day read to the stockholders, and the Board of Directors of this company is hereby instructed to cause said lease to be duly executed and delivered in behalf of this company.

A stock vote on the foregoing resolution was taken and resulted in its adoption, the vote being, ayes 10,655 and nays 125.

On motion the meeting then adjourned *sine die*.

SILAS N. MARTIN, *Chairman*.

J. W. THOMPSON, *Secretary*

# PROCEEDINGS

OF THE

## THIRTY-SEVENTH ANNUAL MEETING OF THE STOCKHOLDERS

OF THE

### W. & W. R. R. COMPANY,

---

WILMINGTON, N. C., November 27th, 1872.

The thirty-seventh annual meeting of the stockholders of the Wilmington and Weldon Railroad Company convened at the office of the President of the Company in the city of Wilmington, at 11 o'clock A. M., on Wednesday, the 27th day of November, 1872.

On motion of Hon. R. R. Bridgers the meeting was organized by calling Donald MacRae, Esq., to the Chair, and appointing J. W. Thompson Secretary.

The Secretary and Patrick Murphy, Esq., were appointed a Committee to examine proxies, and to report the amount of stock represented.

The Committee after examining reported 10,855 shares of the stock represented.

Hon. R. R. Bridgers, President of the Company read his annual report, and submitted the reports of the Superintendent and Treasurer, which several reports were on motion of C. H. Brogden, Esq., received.

The meeting proceeded to ballot for a President and ten Directors of the Company for the ensuing year which resulted in the unanimous re-election of Hon. R. R. Bridgers for

President, and the following as Directors, viz.: Wm. A. Wright, A. J. DeRosset, George Harriss, W. H. Willard, George Howard, Curtis H. Brogden, W. T. Walters, B. F. Newcomer, S. M. Shoemaker and J. D. Cameron.

On motion, it was then

*Resolved*, That the next annual meeting be held in Wilmington on the Wednesday next succeeding the third Monday in November, 1873.

After a vote of thanks to the Chairman and Secretary the meeting adjourned.

DONALD MACRAE, *Chairman*.

J. W. THOMPSON, *Secretary*.
